

TECHNICAL SPECIFICATION SHEET  
Construction Equipment — Issued by CityBridge Technical Review Office

SAMPLE DOCUMENT — FOR CITYBRIDGE PROJECT DEMONSTRATION ONLY — NOT A VALID TECHNICAL CERTIFICATE

|                |                               |             |              |
|----------------|-------------------------------|-------------|--------------|
| SPEC SHEET NO. | CB-TECH-2026-00093            | ISSUE DATE  | Apr 28, 2026 |
| PERMIT TYPE    | Construction Equipment Permit | VALID UNTIL | Apr 28, 2027 |

EQUIPMENT INFORMATION

|                     |                       |
|---------------------|-----------------------|
| Equipment Name      | Hydraulic Tower Crane |
| Model               | Liebherr 280 EC-H 16  |
| Manufacturer        | Liebherr Group        |
| Country of Origin   | Germany               |
| Serial Number       | LBH-2024-TC-88312     |
| Year of Manufacture | 2024                  |

TECHNICAL SPECIFICATIONS

| PARAMETER                   | VALUE      | UNIT      |
|-----------------------------|------------|-----------|
| Maximum Load Capacity       | 16,000     | kg        |
| Maximum Jib Length          | 80         | m         |
| Maximum Hook Height         | 72.4       | m         |
| Trolley Travel Speed        | 0–100      | m/min     |
| Hoisting Speed (max load)   | 0–36       | m/min     |
| Slewing Speed               | 0–0.8      | rpm       |
| Power Supply                | 400        | V / 50 Hz |
| Total Power Consumption     | 110        | kW        |
| Operating Temperature Range | -20 to +55 | °C        |
| Self-Assembly Weight        | 62,400     | kg        |

SAFETY & COMPLIANCE

|                            |                                     |
|----------------------------|-------------------------------------|
| CE Certification           | Yes — CE 2024-TC-4421               |
| Saudi SASO Approval        | SASO/CR/2025/00812                  |
| Last Inspection Date       | March 15, 2026                      |
| Next Inspection Due        | March 15, 2027                      |
| Operator License Required  | Class III Heavy Equipment License   |
| Safety Load Limit Override | Automatic cutoff at 110% rated load |
